

Weatherproof CCTV Power Supply introduction

Weatherproof Security cameras are a great selection for home or business security camera installations to provide outdoor coverage of the outdoor areas around your business or home. The following CCTV power supplies are all weatherproof style, that can be mounted directly outside. Their enclosure are sealed to prevent damage from moisture, cold, rain, sleet, snow and more, so that the camera stays protected in any environment.

The advertisement features a central graphic with a light blue background. On the left, two weatherproof power supply boxes are shown with their doors open, revealing internal components. Red and blue lines connect these boxes to a central power supply unit. To the right, a grey metal pole holds several security cameras. The text 'Weatherproof CCTV Power Supply' is written in large, bold, yellow and blue letters at the top right. Below this, two specifications are listed: '500mA 9 channels' and '500mA 6 channels'. A 'Feature:' section lists: '◆IPX65', '◆12V output multiple channels power supply', '◆Circuit Short Protection', '◆High Voltage Protection', and '◆Over Current protection'. At the bottom, a caption reads: 'The box are sealed to prevent damage from moisture, cold, rain, sleet, snow and more, so that the Power Supply stays protected in any environment.'

**Weatherproof
CCTV Power Supply**

500mA 9 channels

500mA 6 channels

Feature:

- ◆IPX65
- ◆12V output multiple channels power supply
- ◆Circuit Short Protection
- ◆High Voltage Protection
- ◆Over Current protection

The box are sealed to prevent damage from moisture, cold, rain, sleet, snow and more, so that the Power Supply stays protected in any environment.

Outdoor weatherproof security cameras are also ideal for dirty indoor environments such as warehouses, loading docks and more, because the sealed weatherproof housing provides great protection from any dust or dirt in the air, the weatherproof CCTV power supplies can be a good friend for them.

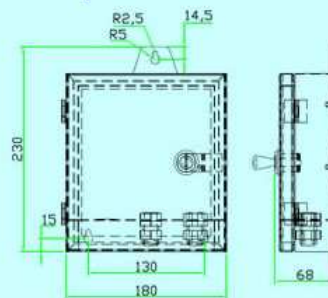

6 channels outdoors CCTV Power Supply

6 Channels Weatherproof CCTV Power Supply

1. IPX67 Waterproof Connector

2. Shape Dimension

3. Waterproof Lock

Multiple View, More attention

Feature:

- ◆ double waterproof design, waterproof rank IPX65
- ◆ Spare waterproof Connector hole
- ◆ Compact size, light weight
- ◆ Easy installation saves time and eliminates costly labor

Specification:

- ◆ 6 groups Outputs, 500mA/output
- ◆ Four 12V DC individually fused outputs
- ◆ Individual LED's for each output
- ◆ Spare fuses included
- ◆ Unit maintains camera synchronization
- ◆ Circuit Short Protection
- ◆ High Voltage Protection
- ◆ Over Current protection

The box are sealed to prevent damage from moisture, cold, rain, sleet, snow and more, so that the Power Supply stays protected in any environment.

9 channels outdoors power supply

9 Channels Weatherproof CCTV Power Supply

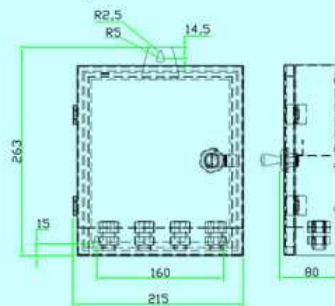

Multiple View, More attention

1. IPX67 Waterproof Connector

2. Shape Dimension

3. Waterproof Lock

Feature:

- ◆ double waterproof design, waterproof rank IPX65
- ◆ Spare waterproof Connector hole
- ◆ Compact size, light weight
- ◆ Easy installation saves time and eliminates costly labor

Specification:

- ◆ 9 groups Outputs, 500mA/output. (1000mA or more, if needed)
- ◆ Four 12V DC individually fused outputs
- ◆ Individual LED's for each output
- ◆ Spare fuses included
- ◆ Unit maintains camera synchronization
- ◆ Circuit Short Protection
- ◆ High Voltage Protection
- ◆ Over Current protection

The box are sealed to prevent damage from moisture, cold, rain, sleet, snow and more, so that the Power Supply stays protected in any environment, up to 18 cameras
